

Electric Heat Kits

Similar to Carrier KFCEH Series

Standard Features

- Point Suspension element support system which eliminates hot spots to extend heater life
- 100% fail safe back-up safety limit, non-mechanical, field replaceable *
- Each 5KW element controlled by a chatter and rapid-cycle resistant contactor *
- Time delay between steps which recycles on power interruption or brown-out *
- No off delay (as with bi-metal sequencers) to increase SEER rating and prevent heating overshoot *
- Protective frame around the elements to prevent damage to elements during shipping, handling or installation *
- Rounded metal corners for safer handling and installation
- Factory installed circuit breakers available on most models
- Modular elements replaceable in 5KW increments *
- Modular control plug for installation ease
- Completely assembled and tested.
- Customized Barcode labeling *
- Non standard KWs and voltages available *
- Consistent On-time Delivery *
