

Individual Room Filtration System

Features and Benefits

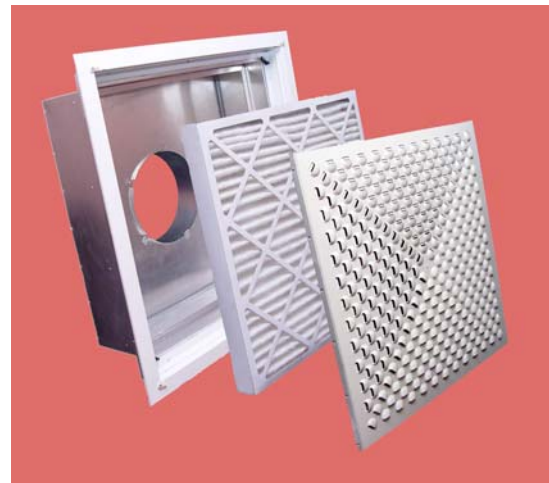

- Incorporates a high efficiency filter inside the ceiling diffusers to increase system filtration without increasing energy costs

- Filtration efficiencies up to 99.9% and MERV 16
- Traps contaminants that accumulate inside the building's ductwork
- Protects building occupants from recirculated airborne contaminants
- Helps remove more space generated particles and contaminants

- Provides a draft-free and dump-proof environment
- Reduce ceiling stains due to airborne particles
- Corrosion-proof, scratch resistant faceplate
- Prevents cold and hot spots from forming
- Variety of sizes and throw patterns available
